

Stack up to 2-4 food cases at once!

Stackable

See-through food cases help you to
keep track of your food!

Transparent

Prevent leaks and keep food fresh!

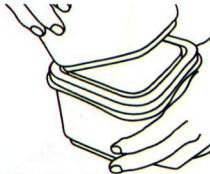

Tight

GENERAL USE

• How to stack food case on top of one another?

- Place one covered food case on top of another covered food case and press together so the bottom of one food case attaches to the lid of the other.

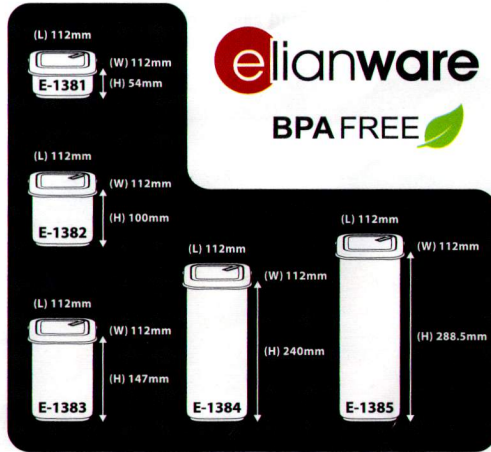

• Cleaning & Safekeeping

- Hand-washing is preferred for both lid and food case.
- Do not use steel or abrasive sponges in order to avoid scratching the surface of the food case.
- Top rack dishwasher safe only.

CAUTION

- Do not heat longer than 2 minutes in the microwave. (Not more than 100°C)
- Not for oven use.
